Starting in 2007, Suffolk has been collaborating with Dump and Run to offer a donation/reuse program in the residence halls during spring move-out. In combination with the implementation of a residence hall recycling program, Dump and Run has contributed to reducing by 65% the combined trash output of 150 Tremont and Miller Hall for April and May (comparing 2009 to pre-program implementation in 2006). This program saves money for the University, reduces our environmental impact, and allows people to benefit from using items that do not need to be thrown away. This year the program is being coordinated by the Eco-Reps, who live in each of the residence halls and serve as environmental peer educators.

THE CHARITIES:

1. **ABCD**
   - ABCD's North End/West End NSC provides ABCD services and programs that include:
     - Fuel Assistance
     - SummerWorks Applications
     - Head Start Applications
     - Holiday Toy Drive Distribution
   - In addition, the NE/WE NSC offers the following services unique to this location:
     - ESOL Classes
     - Computer Classes
     - Emergency Preparedness Programs
     - Free EITC Tax Assistance
     - Emergency Food Pantry
     - Food Stamp Applications
     - Senior Drop-In Center
     - Low Income Housing for Seniors
     - Advocacy Campaigns

2. **GOODWILL**
   - Morgan Memorial Goodwill Industries’ mission is to provide exemplary job training and related services to help individuals with disabilities and other barriers to self-sufficiency to achieve independence and dignity through work.

3. **DUMP AND RUN**
   - Dump & Run is dedicated to serving the University and College community in waste prevention techniques. We desire to reduce the amount of waste generated at Colleges and Universities by extending the useful life of items no longer needed by the student community at years end. We seek to generate capital for non profit environmental and social groups willing to participate in the projects. Finally, we aim to educate the public about the problems regarding consumption of natural resources and the need to conserve those resources for future generations.
