Now it’s easier than ever to recycle at Suffolk!

Introducing **Single-Stream Recycling**...

*All recyclables go together in one bin!*

---

**Plastics**

**Empty:** plastic food containers, yogurt containers, plastic bottles, and plastic cups and plates

---

**Glass and Metals**

**Empty:** food cans (i.e. soup, tuna), soda cans, aluminum foil, empty glass jars and bottles, and non-hazardous aerosol cans

---

**Mixed Paper and Cardboard**

Mixed white and color paper, newspaper and magazines, glossy paper, index cards, sticky notes, books, business cards, brochures, juice cartons, paperboard, and cardboard (flattened)

---

**How do I recycle?**

Place the above types of items in any recycling bin on campus. Discard trash in trash bins only.

---

**What goes in the trash?**

Not much! Food waste (i.e. apple cores, banana peels, gum), tissues, paper towels, plastic utensils, plastic bags/wrap, foam, straws, and soiled paper.

---

**What about rechargeable batteries, cell phones, and toner and ink cartridges?**

To recycle, just drop them off at your building’s Mail Room.

---
